

28.10.2011

Erika Forster of White Door Design was recommended to me through a mutual friend, and I could not be happier. She designed our kitchen, along with a water closet and ensuite. Her designs combine her strong sense of style with an understanding of functionality and practical usage of a space. Our home is Heritage Listed, and Erika was able to adapt and conform easily to the requirements set by Council. She combines her expertise with the customer's requirements to produce a really wonderful design you can be truly inspired by.
